

Autodesk Inventor Certified User

Aligned Programs of Study:

- Advanced STEM Applications
- Engineering
- Technology

Description

The Autodesk certification is an industry-recognized credential that can effectively start students' careers as designers, engineers, and makers. Autodesk Inventor Certified User is an introductory Autodesk certification for individuals interested in obtaining marketable 2D and 3D design skills. This certification addresses entry-level knowledge of creating, modifying, formatting, and sharing 2D sketches. It also includes creating parts, presentations, drawings, and a wide spectrum of other fundamental technical concepts. This certification assesses and validates your core technical knowledge and enhances your technical credibility and can be used to demonstrate your ability and commitment when applying for above entry-level positions.
