

# Autodesk Revit Certified User

**Aligned Programs of Study:** Architectural & Engineering Design

## Description

The Autodesk certification is an industry-recognized credential that can effectively start students' careers as designers, engineers, and makers. Autodesk Revit Certified User is an introductory Autodesk certification for individuals interested in obtaining marketable 3D design skills. This certification addresses entry-level 3D drafting and design software used primarily for Building Information Modeling (BIM). Revit can be used to aid architects, engineers, designers, and renovators in planning and constructing buildings more efficiently. This certification assesses and validates core technical knowledge and enhances technical credibility and can be used to demonstrate ability and commitment when applying for entry-level positions. An individual earning this certification has approximately 150 hours of instruction and hands-on experience with the product, has proven competency at an industry level and is ready to enter the job market.

## Certification Information

Test Owner

Certiport, Inc.

Phone: (888) 999-9830
