Certification exams are offered online through [iCEV Multimedia](#).

Preparing to offer the certification

Exam Details

The EETC Principles of Small Engine Technology Certification is hosted on the iCEV testing platform. The certification exam is a 100-question, randomized assessment. Exam questions are in the format of multiple-choice, sort order, diagramming, matching, labeling, and other question types meant to fully evaluate an individual's competency of the industry standards. The certification exam should be proctored within a controlled environment.
