

CERTIFIED NURSING ASSISTANT

Aligned Program of Study: Nursing Services

Description

The Certified Nurse Aide is a nationally known credential in nursing care and is a key stepping stone in career advancement for patient care providers. The Omnibus Budget Reconciliation Act of 1987 (OBRA 1987) required states to initiate and maintain Nurse Aide Training and Competency Evaluation Programs and Nurse Aide Registries. The Act was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nurse aides who work in such facilities. The CNA credential allows a student to enter the healthcare field as a certified healthcare provider and is required, by law, for all nurse aide practitioners in Tennessee.

Certification Information

Test Owner:

D&S Diversified Technologies LLP

Testing Sites/Centers:

Testing Sites/Centers can be found [here](#), but can also be arranged by the teacher if the school is a recognized test site.
