

District Support Network

Tennessee Accelerating Literacy & Learning Corps

The Tennessee Department of Education is *excited to announce the launch of the TN ALL Corps District Support Network!*

Throughout the 2022-23 and 2023-24 school years, the network will provide instructional leaders of all the 87 TN ALL Corps districts with opportunities to engage in a variety of collaborative learning experiences and resources designed to enrich local tutoring programs.

OVERVIEW OF NETWORK SUPPORTS

» District Support Convenings:

In-person district support convenings, which will consist of two key components, will allow for districts to receive continuous support in key areas throughout the year. Districts will be able to come together to share best practices, learn from one-another, and collaborate regionally. Districts should invite their staff leading their TN ALL Corps work to attend, as well as bring key staff working to accelerate district learning.

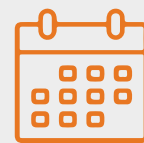

» **Three (3) annual in-person regional meetings** will dig deeper into critical components of district's tutoring program and give opportunities to collaborate with other districts to refine and strengthen each district's approach.

» **Virtual communities of practice sessions**, held in between regional meetings, will allow districts to continue learning from one-another through panel discussions, case studies, and joint workshopping of tutoring program policies and resources.

» Asynchronous Modules:

A series of asynchronous modules will allow TN ALL Corps districts to explore how TN ALL Corps aligns with research-based tutoring best practices and share how to apply learnings to your district's program. Module topics will include:

- Student Selection and Placement
- Content and Curriculum Usage in Tutoring
- Data and Progress Monitoring

SAVE THE DATES

More information on registering to attend these district support convenings will be shared soon.
