

HAZARDOUS WASTE MANAGEMENT CORRECTIVE ACTION PERMIT REISSUED TO THE UNITED STATES NAVY FOR THE NAVAL SUPPORT ACTIVITY MID-SOUTH FACILITY MILLINGTON, TENNESSEE

The Tennessee Department of Environment and Conservation's (TDEC) Division of Solid Waste Management (DSWM) has made a final decision to reissue a hazardous waste management corrective action permit to the United States Navy (Navy) for the Naval Support Activity Mid-South (NSA Mid-South) facility. NSA Mid-South (EPA ID TN2170022600) is located in Shelby County at 5722 Integrity Drive Millington, Tennessee. This action follows a 45-day public comment period, which ended on September 11, 2023. No comments were received from the public. Comments were received from the Navy. DSWM has included a Response to Comments to address these comments with Permit TNHW-192.

The permit (TNHW-192, formerly TNHW-149) allows the Navy to continue to perform corrective action for solid waste management units and areas of concern at the NSA Mid-South site. It includes provisions for providing site security, performing groundwater monitoring, and maintaining institutional controls, such as restrictions on digging and use of groundwater. Additionally, the permit requires the Navy to continue corrective measures on transferred property in regard to corrective action. The permit includes requirements to investigate any other release of hazardous waste or hazardous constituents discovered at the site, regardless of the time at which waste was placed in a unit, and to take appropriate corrective action for any such release. At this time, there are no additional units that require further action.

The permit is issued under the authority of the Tennessee Hazardous Waste Management Act of 1977, as amended, Tennessee Code Annotated, Section 68-212-101 et seq., and Rule Chapter 0400-12-01, Hazardous Waste Management. The permit is effective as of September 27, 2023, and shall remain in effect until September 27, 2033, unless continued, revoked and reissued, or terminated under applicable regulations.

Electronic copies of the permit, including the [Response to Comments](#), are available to review online at tn.gov/environment/notices/nsa-midsouth and at the DSWM Central Office, TN Tower, 312 Rosa L. Parks Avenue, 14th Floor, Nashville, TN 37243 (615-532-0780). Copies are also available for review at the Millington Public Library, 4858 Navy Road Millington, Tennessee 38503 (901-872-1585) and the TDEC Memphis Environmental Field Office, 8383 Wolf Lake Drive, Bartlett, TN 38133 (901-371-3000).
