

**NOTICE OF INTENT TO MODIFY
HAZARDOUS WASTE PERMIT TO
OLIN CORPORATION**

The Tennessee Department of Environment and Conservation (TDEC) Division of Solid Waste Management (DSWM) has tentatively decided to approve a Class 3 Modification to Hazardous Waste Permit TNHW-163 for the hazardous waste landfill, as requested by Olin Corporation (Olin). The Class 3 Modification updated the Contingency Plan, Closure Plan, and Post-Closure Plan. Olin (EPA ID No. TND003337292) is in Bradley County at 1186 Old Lower River Road, Charleston, TN. TDEC invites the public to submit comments on this proposal during a 45-day comment period ending on **Friday, January 31, 2025**.

DSWM has determined that the proposed modifications are protective of human health and the environment. As hazardous waste remains in the hazardous waste landfill, the proposed permit modification requires Olin to continue to maintain controls that will prevent exposure to those contaminants in soil and groundwater. Olin will continue to follow the long-term care of the hazardous waste landfill as outlined in Permit TNHW-163.

The permit is proposed to be modified under the authority of the Tennessee Hazardous Waste Management Act of 1977, as amended, Tennessee Code Annotated, Section 68-212-101 et seq., and Rule Chapter 0400- 12-01, Hazardous Waste Management. In accordance with Rule 0400-12-01-.07(9)(c)5.(iii)(VII) and -.07(7)(e), DSWM is providing a 45-day comment period beginning on the date of this publication, Tuesday, December 17, 2024.

Electronic copies of the draft modification, application, and fact sheet are available online at <https://www.tn.gov/environment/notices/olin-163-class-3> and at the DSWM Central Office on the 7th Floor of the Davy Crockett Tower, 500 James Robertson Parkway, Nashville, TN 37219 (615-532-0780). After considering all comments, DSWM will make a final decision to either issue or deny the permit modification. Notice will be given to the applicant and to each person who has submitted written comments or requested notice of the final decision. At the time of a final decision, a Response to Comments addressing all significant input received on the proposed modification will be made available to the public.
