

Event 32801-12219 Pickwick Fishing Pier Specifications:

This solicitation is for Tennessee Wildlife Resources Agency (TWRA) to procure the components of a fishing pier at Pickwick State Park: 116 State Park Road Counce, TN 38326. The construction and installation of the piers will be handled internally by TWRA. Delivery must be completed within 75 of days following the issue of a Purchase Order.

The Contractor shall provide the following components:

- Three (3) 5' x 30' gangways:
 - Aluminum Construction (No Substitutions) - Marine Grade 6061 or 6063
 - Aluminum Decking
 - Handrails on both sides of gangway
 - Intermittent handrail located at 34 inches
 - Bulkhead mounting kits for attachment to concrete bulkheads
 - Aluminum angle 2
 - Mounting hardware
 - Stainless steel hinge pin
 - Hinge at bottom of gangway for attachment to floating dock system
 - Aluminum hinge pin
 - Supplemental flotation under bottom of gangway. The flotation shall provide support for the point load of the gangway and not add additional load to the floating dock system.

- 10' x 200' floating dock (supplied in eight 10' x 25' sections)
 - Aluminum Frames- Marine Grade 6061 or 6063
 - Gray 5/4" x 6" composite decking rated for 24-inch span
 - Decking attached using the Timber Strong fastening system- meaning there are no fasteners in deck surface.
 - Plastic encapsulated flotation providing a freeboard of 20 inches.
 - Dock to Dock mounting kits for attaching floating dock sections together.
 - Three (3) cleats per dock section, for a total of twenty-four (24).
 - Cleats are adjustable and can be relocated along the dock side.
 - Rubber rub rail located on 200-foot and 10-foot sides of dock.
 - The rub rail shall be slid into the dock frame and not mechanically attached.
 - Four (4) corner bumpers shall be provided.
