

**Specifications**  
**TWRA Skeet/Trap Houses**  
**ITB 32801-12594**

- A. General Requirements – Contractor shall:
1. Dismantle three (3) existing concrete skeet house tops and take away.
  2. Remove existing doors, supply, and install three (3) new painted, rolling skeet house tops per plans.
  3. Remove and replace two (2) fold down doors with double fold-out doors similar to the doors on the remaining house.
  4. Paint all new metal doors and top with DTM paint
  5. Grade the field behind the trap houses so the doors slide open freely.
  6. Relocate dirt on sight to divert water flow to help prevent future flooding.
  7. Fix the drain and pump on Field #3.
  8. Relocate existing discharge pipe on existing sump pump on the far west skeet house. The hose shall run through back wall and daylight behind skeet house.
- B. Drawings are attached to ITB event.
- C. Site Visit: A site visit is not mandatory but is strongly encouraged.
1. Site Visit Date Options: December 12, 2022 and December 13, 2022.
  2. To setup a site visit, contact JW Worthen at 731-988-6427 (cell) or 615-353-1133 (office).
- D. Address: 6903 Great View Dr. N.  
Memphis, TN 38134
