

Specifications for VIVITROL

The Tennessee Department of Mental Health and Substance Abuse Services (TDMHSAS) is requesting bids for a five (5) year contract with a supplier for the purchase of VIVITROL (long-acting injectable naltrexone). VIVITROL is a once-monthly treatment which blocks the opioid receptors in the brain, and it is provided in injectable form.

The Supplier shall:

- Provide the medication at lowest possible cost for an indigent population. This rate should include free, 2-day shipping of the medication to the vendor sites.
- Ship directly to multiple addresses across the State of Tennessee as provided by TDMHSAS. Please see **Attachment 1** for a list of current addresses.
 - Additional addresses across the State of Tennessee may be added during the contract and the supplier shall seamlessly implement these.
- Fill varying amounts of orders depending on new patient referrals. Specifically, recovery courts across Tennessee refer their participants to this program if appropriate for the participant. Recovery courts constantly get new participants and so there will be new patient referrals each month.
- Fill orders within forty-eight (48) hours, excluding state of Tennessee holidays (see **Attachment 2** for list of current holidays) and weekends, understanding that the number of doses ordered will vary and up to fifty (50) doses or more may need to be shipped.
- Send electronic invoices within thirty (30) days of receiving an order to TDMHSAS fiscal department via MHSAS.Fiscal.Invoices@tn.gov.
- Have a customer service team to ensure TDMHSAS can contact them with any issues related to shipment or emergency orders.
- Have a relationship with a pharmaceutical company that can provide training regarding protocol for VIVITROL administration, education, and vendor communication.
- Have and maintain licensure from the Tennessee Board of Pharmacy, registration with the Tennessee Secretary of State, and be licensed as a Pharmacy, Wholesaler, Distributor, or as a Manufacturer.
