

Bear-Resistant Trash Receptacle

Specifications Sheet

Bid Items:

1. Receptacles

The Tennessee Department of Transportation (TDOT) is seeking to add receptacles for trash and recycling along public areas within 7 of the State's Scenic Byways. Because some of the Scenic Byways are adjacent to National Forests, the receptacles must be bear-resistant and be Interagency Grizzly Bear Committee (IGBC) certified. The receptacles shall adhere to the standard specifications below:

Dimensions: Minimum 48" wide x 47" tall x 29" deep.

Construction: Each unit shall be of steel construction, with adequate reinforcement, where needed. Units must sit above the ground, for long-term use. Each unit shall be able to contain two (2) 36-gallon can liners, one for trash and one for recycling. Each unit must also have two (2), roughly 16" square top hatches, with reinforced doors and full length commercial stainless-steel hinges. Two (2) front access doors are required.

Color/ Finish: Brown - Powder Coated

Decal: "TRASH ONLY" and "RECYCLE ONLY" decals shall be adhered to openings on each unit. Vinyl or another adhesive is acceptable.

Quantity: 80 units

2. Additional Artwork

The vendor shall affix a TDOT-provided adhesive decal/wrap to each unit. The logo shall be centered and readable on the back of each unit. A sample logo is below for reference.

3. Shipping

Items will ship to 7 individual locations, 1 location for each unique Tennessee Scenic Byway. Quantity per location and shipping address information are located below:
