## **REPORTS**

### **Financial Report**

The financial report was presented to the board by Ms. Noranda French.

### **Executive Directors Report**

Ms. Smith reported that since January 1, 2019, the board has had a total of 464 initial license applications opened between all 3 professions. As of March 31, 2019, the board has a total number of 19,092 active licensees. Currently, more than half of all license renewals are being completed online in the LARS system.

### **CE Broker Update**

As of April 5, 2019 only 2,687 licensees who have created a basic account registration in CE Broker. Approximately 280 active professional subscriptions have been created. CE Broker also has 255 active courses accessible from their website.

### **Office of Investigations Report**

Ms. Lori Leonard presented the Office of Investigations Report. Between all 3 professions, there have been a total of 75 complaints opened since January 1, 2019, and a total of 78 complaints have been closed during that timeframe.

### **Update from the Schools of Dentistry**

Meharry School of Dentistry- the school has a mobile dental clinic that travels all over the state to provide dental services to areas where people are unable to afford dental work. The school is also working to provide programs to high school and college students to hopefully encourage additional students to become interested in the dentistry field. A new Expanded Functions Dental Assisting program is being planned to apply for board approval shortly, which will greatly help with getting more dental assistants into the program that has been limited to the UT School of Dentistry previously.

University of Tennessee School of Dentistry- the commencement ceremony will be held May 24<sup>th</sup>, and will be graduating approximately 97 students. The new building that will house the dental school should be opening by 2021, and includes facilities to help train students additionally on working with special needs patients. The Expanded Functions Dental Assisting program is working towards being doubled, so the backlog of applicants on the waiting list can be reduced greatly in a shorter period of time. Having additional RDA's with the Expanded Functions certification would allow them to do more work on patients, and free up the dentists to work on other patients in their office. With the increase in population in the state, there are more patients to work on, and but without a significant increase in the number of dentists practicing in the state. Having additional Expanded Functions RDA's would help dental offices provide better care more efficiently, and take some of the strain off the dentists.

### **Wellness Committee Update**

Dr. Sain discussed the benefits of recommending dentists to check the CSMD before writing any prescriptions for opioids, to avoid over prescribing and preventing those addicted from attempting to visit multiple dental offices to get additional prescriptions. Dr. Bateman requested to have a newsletter sent out from the board to dental professionals that would include information on the differences between the TDA, the board, and the Wellness Committee, since there has been some confusion in the past.

### **OTHER BUSINESS, RULE CHANGES AND/OR POLICY CHANGES**

#### *Chronic Pain Guidelines*

Linda Johnson came before the board to present on behalf of Dr. Mutter. Tennessee has dropped in the number of opioids medical and dental professionals have been prescribing, but the state is still ranks within the top 10 states in the number of opioids that are prescribed. With the Chronic Pain Guidelines and educational programs, it is projected the number of opioids being prescribed will continue to reduce and CSMD will be checked by providers to ensure they are prescribing those substances properly. A motion was made by Dr. Meadows to accept the Chronic Pain Guidelines as amended, Dr. Bateman seconded the motion, and the motion carried. Dr. Williams and Dr. Travis, along with one member of the Anesthesia Committee, will be members of a task force for Chronic Pain Guidelines for Dentistry that will be formed to develop guidelines specific to dentists.
