Re: Project Extension Request
Project No. 2019-04-TN-0628
CMP Project Approved: \$1,416,653.72
Virtual Dementia Tours Comprehensive Education Program

Dear P.K. Beville:

Your February 7, 2020, request to expand the Virtual Dementia Tour, Comprehensive Experiential Education program to 200 Tennessee certified nursing homes over a three (3) year period has been approved. Originally, Second Wind Dreams was to provide dementia education and training to 100 nursing homes over two years. This change allows Virtual Dementia Tours, education and training to be provide to a total of 200 nursing homes over three years.

Based on our review, we find that the requirements at 42 CFR § 488.433 are met and that the request to expand the project to a third year may be funded with federally imposed CMP funds. Funding for Year Two is contingent upon meeting all project deliverables for Year One. Funding for Year Three is contingent upon meeting all project deliverables for Year Two.

A quarterly report on the progress of the project shall be submitted to the State Survey Agency and CMS, as well as, an annual report disclosing challenges, best practices and lessons learned. Reports shall include a cover letter, the name of the project leader, along with their telephone number and e-mail address; and the CMP request number 2019-04-TN-0628 on all pages of the report.

Submit all reports electronically to: Stephanie.Davis@cms.hhs.gov

In accordance with 42 CFR § 488.433, states must make information about the results of projects funded by CMPs available to the public. States must submit results of projects using the CMP Reinvestment State Plan Project Tracker, due annually in February and posted on the CMS CMPRP website.

If you have any questions regarding this CMP project extension, please contact Stephanie M. Davis, at (404) 562-7471.

Sincerely,

Stephanie M. Davis for
