
Guidelines for Use of TVAAS Data Policy 3.402

The Background:

The State Board of Education adopted the Guidelines for Use of TVAAS Data Policy in July 1996. This policy, which has not been revised since its initial adoption, outlined provisions pertaining to the paper-based distribution of TVAAS scores to teachers as well as information about the application of TVAAS data.

This policy is now duplicative with the protections that govern the use, security, and application of TVAAS data in Tenn. Code Ann. § 49-1-606. As such, it is recommended that this policy be repealed.

The Recommendation:

The Department of Education recommends acceptance of this item on first reading. The SBE staff concurs with this recommendation.
