
Appointment of Hearing Officers for Rulemaking Hearing on Individualized Education Account Rules

The Background:

Public Chapter 431, passed by the General Assembly this year, requires the State Board of Education to work with the Department of Education and Department of Health to promulgate rules to effectuate the Individualized Education Account program. A public rulemaking hearing will be held on these rules, and the appointment of hearing officers for the rulemaking hearing is necessary. Therefore, the Chairman appoints Sara Heyburn, Executive Director, and Angela Sanders, General Counsel, to serve as hearing officers of the Board for purposes of conducting a rulemaking hearing on Individualized Education Account rules.
