

**RESPONSES TO QUESTIONS/COMMENTS CONCERNING THE NOTICE TO CONSULTANTS REGARDING THE  
LETTER OF INTEREST ADVERTISEMENT FOR UTILITY COORDINATION SERVICES.**

**Question 1:**

Q: Is there any expectation for local government utility aid?

A: No, the work orders issued to the consultants selected will only be for TDOT projects.

**Question 2:**

Q: In the "Utility Services Contract Scope" section, item (b) identifies inspection services. Could you define what is meant by inspection services? For example, is this construction or material inspection services similar to a CEI activity or is this more like supervise installation to ensure it is per the plan's requirement?

A: It is similar to CEI work. Inspecting for spec and plan requirements will always be the utility's responsibility.
